A coolie who was in the employment ofthe Public Works Department was charged before Commander Hastings, at the Magistracy to day, with demanding money by menaces. The prisoner entered several shops and stated that he was employed by the Water Authority and if the owners did not pay him a certain sum he would summon them to appear at the Magistracy for having leaking water pipes. The occupant of No 230 Hollywood Road informed. Inspector Quincey of the visit of the so-called water inspector, and the Inspector took the number of a five-dollar note which he handed to the shopman, and told him to Kobs, Nagasaki and Shanghai, on the pay the man when he called if he demanded money. When the coolie called he demanded \$3, and the shopman handed over the \$5 note in presence of two Chinese detectives. The man was immediately arrested, and to-day the charge was established. Commander Hostings said a man of his character was more suitable for a yamen runner than the employ of the six months' imprisonment with hard labour.

It is curious to note the persistency with which the Home newspapers belittle the docking accommodation of Hongkong. The latest offender is the London and China Express, whose editor ought to know more about Hongkong than the ordinary Fluet Street scribbler. In the latest issue to hand. the Express says :-- 'A consideration arising out of the despatch of H.M.S. Powerful to the China Station is that referring to the matter of putting her in dock should necessity arise. The largest dock at Hongkong is 570 ft. overall and 530 ft. on the blocks, with a width at the gates of 85 ft., and 28 ft. of water on the sill. This is by no means a small dock, but it does not suffice for such a monster as the Powerful. Perhaps the Admiralty contempiates further docking arrangements at Hongkong. The Powerful is not such a monster that the Kowloon dock cannot accommodate N. S. Levy her. Enquiries were made about two years ago by the Admiralty officials in Hongkong as to the possibility of docking the Powerful or the Terrible here, and the authorities were perfectly satisfied with what they then

We understand that the Hon. A. M. Thomson, who has noted for some time as Postmaster General hero, has received the substantive appointment. As this is the first post which Mr Thomson has received -he has been acting in every case until now—he is to be congratulated upon hi promotion. The community will agree with us when we say that Mr Thomson is one of the most capable young officers in the Service, but the hopes entertained of his success in any given position must to sonie extent depend upon a definite appointment. Until he obtains an adequate building to transact all the sections of his postal business, he is handicapped in a certain souse, -especially when the Chinese postal service has been switched on to the other duties. It is certainly a bold tack which the Amsteur Dramatic Club has undertaken in the production of so well-known an opera as 'Les Cloches de Corneville.' It is pretty safe to assert that there are very few in this Colony who have not witnessed the performance of this opera by professional companies of first-class merit, and, therefore, the A.D.C. have stepped into the arcus of comparison where they have been the cynosuro of severely critical eyes. It is gratifying to know, however, that in have taken mart in the outribe. their first appearance they have outwitted the proverbial phrase as to the odiousness of comparison, and won for themselves a meed of well-deserved praise. To overtake the large increase in our business it has been necessary to the engineering, boiler, and shiprepairing establishments almost night and day; as this method of doing work is however not only costly but in many ways unsatisfactory, your Directors think that the time has come, not only for making further additions to our machine shops, but also to an enlargement of our whole establishment ! at Kowloon; by so doing we hope to save not only much time and labour but subsequently to enter on a more extensive sphere of business. I have no doubt, agree with me that it is good policy to go on writing off fair amounts and thus further strengthen our position, though our book values have already been brought lown to a satisfactorily low level-our three establishments, after writing off the \$51,355.63 as proposed, stand at \$1,425,000. certainly a very moderate figure for such complete and magnificent establishments Our stock of material is less than six months age by about \$100,000, but with our everincreasing business it is absolutely necessary to always keep a large stock on hand. so as to beable to meet all wants and needs of the many vessels that come to us. As a rule our stock has been valued at the end of each year by one expert; but this time we had the work done by two, so as to be quite sure of the correctness and value of the stock, and you will be pleased to know that the report of the two valuators appointed by us proves that the amount shewn in our books is actually less than the cost price. Interest account you will glad to notice appears for the first time on the credit side of our revenue account, the amount is still small but in subsequent reports it will be greater. In connection herewith I may mention that it has been suggested to employ our funds which we don't use in the ordinary run of our business, in during the last four years has been a better paying way than leaving them on fixed deposit account; however, our present deposit of \$200,000 runs off some time in June, when that time draws near your Directors will fully discuss the advisability of investing the amount at our disposal some way that will yield a better return. THE TIGHTNESS OF MONEY. A SERIOUS STATE OF AFFAIRS. Colombo, Feb. 6.

This morning the unwelcome news reached Colombo that the Bank of Boming had raised its discount rate from 10 to 12 per cent-the highest rate at which it has, we believe, ever stood in the past. result has been a sudden jump in Exchange, which is now quoted 1/33 for do-mand, and 1/3 | for hix months bills, with prospects of even higher rates in a few days. So far as we can gather, however, there is no belief either in a long continuance of the present stringency of money or the existing high rate of exchange, and March and April are spoken of as likely to see a return to a more normal state of affairs. But memwhile legitimate business is being stifled, and the present is a very serious state of affairs for all those having dealings with native merchants, while to the planting enterprise it means a temporary restriction of profits, for, at present rates of exchange, many estates are left with but a small margin of profit. Times of Ceylon.

THE FRENCH IN CHENGTO. Chungking, Jan. 12, M. Hass has gone to Chengtu to interview the Viceroy anont the Batang French mis-sionary scheme which the native authorities are endeavouring to defeat. The latter will not succeed if M. Haas can possibly prevent them. It is also said that the French Consul wishes to settle the late Syndicate's claim growing out of the supbasis somewhat more equitable than the high mandarins have proposed. The French be Tls. 70,000, while the native offer amounts to Ths. 20,000. There is a wide discrepancy between the two sums, and plenty of room for concession on both sides. The departure of M. Haas, whose name, by the way, is well known even on our streets, and who has been referred to by people in the writer's hearing as a man great push and vigour, was followed almost immediately by that of the acting Taotai who was summoned to Chengtu to the Viceroy in the coming discussion with M. Haas. the Viceroy was here a few weeks ago nothing was done to facilitate a settlement, although it might have been supposed that no better opportunity could have arisen for terminating such disputes. Of course H. E. was, while here, very much tied for time; but with such important questions calling for prompt adjudication, it, to say the least, appeared strange to onlookers dive's rule in the territory already won, to dispose of the issues. With reference to M. Haas's recent purchase of property and the dispute that arose out of it, an amicable arrangement has since been come to. As the land of China belongs nominally imprudent challenge to France and Russia. to the Emperor, it cannot, it is said, be Hon. G. Curzon denied that Sir M. Hicks sold to a foreigner. Egypt, he added, pays interest at the rate of 27 per cent, upon the loan, and will repay the capital by convenient instalments. The necessity of making the advance was, he said, likely to prolong, and not to shorten, our occupation of Egypt. The main cause of prolonging our occupation much longer than was anticipated was the refusal of France to allow Great Britain a free hand. Great Britain regards the advance in the Nile Valley as necessary, and will not be worried out of its policy by hindrances such as the refusal of money for the Expedition. Sir Michael said it was proposed in the coming season to advance to Abuhamed. and afterwards probably beyond, but it was necessary first to consolidate the Khethat no attempt was made by the Viceroy and secondly to acquire important strategic positions, which would be valuable in future.
